

BIODIVERSITY NET GAIN SCHEME MANOR FARM, CHEARSLEY

This is an exciting opportunity for developers to support strategic habitat restoration that will generate over 90 biodiversity units.

Local Planning Authority

Buckinghamshire Council

National Character Areas

Midvale Ridge

Distances

- 0.8 km from Chearsley
- 3.6 km from Thame
- 9.4 km from Aylesbury

Biodiversity units for sale

BNGenquiries@bidwells.co.uk

Developers with offsite BNG requirements can contribute to the establishment of this scheme through the purchase of biodiversity units.

Location

The site is located approx. 9.4km east of Aylesbury and sits in Buckinghamshire Council Local Planning Authority and Midvale Ridge National Character Area. A public right of way passes through the site, allowing for community access.

Landscape character

The site borders a tributary of the River Thame and is surrounded by predominantly agricultural land, comprising fields bounded by hedgerows, as well as scattered small woodlands.

Land size

The BNG site is circa 19 hectares (47 acres).

Current use and baseline habitats

Baseline habitats consist of arable land in short-rotation coppice and cover leys, wet grassland with ponds, woodland, scrub and two hedgerows.

Habitat creation

Biodiversity units will be available for the following habitats:

High distinctiveness

- Grassland

Medium distinctiveness

- Grassland
- Woodland
- Individual trees
- Heathland and shrub

Land management

Strategic spatial planning of habitat delivery across the site has been undertaken and a robust and flexible long-term management structure is in place to maximise environmental outcomes. Land management will include conservation grazing with traditional English Longhorns and various traditional breeds of sheep.

Method and terms of sale

Biodiversity units which meet developer compensation requirements in terms of habitat types and extents can be purchased 'off-the-shelf.' An option for the purchase of biodiversity units will be granted to purchasers, allowing them to secure planning consent before funding the physical habitat creation. The physical habitat creation works will commence once the option is called or in advance as an active habitat bank.

Environmental outcomes

This innovative habitat creation scheme builds on the ambitions of this organic farm to be more sustainable. The scheme will not only benefit nature but also contribute to a range of other ecosystem services including:

- Expansion of wildlife corridors
- Improved air and water quality
- Natural flood attenuation
- Carbon sequestration

Scheme benefits

There are huge advantages in delivering BNG requirements through this scheme:

- Providing significant contributions to recognised local ecological priorities
- Surety of where offsets are being delivered
- Contribute to landscape scale enhancements
- Greater confidence in the security of long-term sustainable management beyond the requisite contractual 30-year period

The scheme will become a showcase for the effective delivery of BNG, demonstrating how offsetting development through habitat creation on a landscape scale is most efficient, cost-effective and maximises environmental outcomes.

The provision of biodiversity units 'off-the-shelf' reduces the risks and delays to developers in seeking credible solutions to satisfy offsite BNG requirements.

AGENTS NOTE

For clarification Bidwells LLP wish to inform prospective Purchaser(s) that we have prepared these sales particulars as a general guide. These particulars do not form part of any offer or contract and should not be relied upon as statements or representatives of fact.

Bidwells LLP has no authority to make or give in writing or verbally any representation or warranties in relation to the Property. The plans and acreages use gross acreages taken from the Ordnance Survey sheets and are not suitable for the preparation of Basic Payment Scheme forms.

Measurements of areas and distance are approximate. The text, photographs and plans are for guidance only and are not necessarily comprehensive. No assumptions should be made that the Property has all necessary planning, building regulation or other consents. Bidwells LLP has not carried out a survey, nor tested the services, appliances or facilities.

Purchaser(s) shall be deemed to have full knowledge of the state and condition as to the ownership of any tree, boundary or any part of the Property. Purchaser(s) must satisfy themselves by inspection or otherwise. In the interests of Health & Safety, please ensure that you take due care when inspecting the Property which, for the avoidance of doubt, must be by prior appointment and accompanied by the selling agent or representatives of the Seller.
